“REQUIRED READING”

On Dr. Jamal R. Rasheed:

“... he does wonderful commentaries. He’s a learned, very strong productive minded person. He’s a scholar.”

“... if you are not reading his commentary, and you are one of my students, I am making it right now, required readings. Required readings that you read the commentaries of Dr. Jamal R. Rasheed.”

Imam W. Deen Mohammed

“ We should welcome this book as a refreshingly clear, critical analysis of modern day culture, with a special emphasis on education. It is refreshing in that it tackles many of the negative influences that retard healthy human development, but does so with an appeal to reason and presentation of usually neglected perspectives.”

Clyde Khalil El-Amin

Higher Education Administrator, Chi. IL
